Selected write-ups (12 of 41 shown)

Aug 2026-Walking a 78-year-old through her first video call (and keeping her doing it)

4.9k views

Jun 2026-Why your 'Wi-Fi is slow' is almost never the Wi-Fi: a diagnosis order that works

11k views

Apr 2026-DNS: the one page I wish every small business would read

8.2k views

Feb 2026-Fixing a 40-user law firm's shared printer fleet without buying anything

3.1k views

Nov 2025-The 20-minute laptop triage I run before recommending a repair

6.6k views

Aug 2025-Backing up a micro-business properly: the 3-2-1 version for humans

5.4k views

May 2025-Migrating 60 mailboxes off a failing server over one weekend

2.8k views

Feb 2025-Teaching notability to people who hate technology

4.2k views

Oct 2024-A field guide to 'it worked yesterday' (what actually changed?)

9.7k views

Jun 2024-Password managers for the over-sixties: a checklist that stuck

7.9k views

Every write-up comes from real jobs (clients anonymised). I write them because explaining a fix in writing is how I check I actually understood it.
