RE: REFERENCE FOR JESS KUMAR

Jess has provided IT support to this firm on a long-term contract since 2021, covering our 60 staff across two floors. I am the practice manager and have dealt with her directly throughout.

In that time Jess has handled everything from routine account and printing issues to a full email migration, usually resolving matters the same day. What sets her apart is how she explains things: our lawyers are clever people who are not technical, and Jess has a real gift for plain-language fixing-she trains as she goes, so the same problem rarely comes back.

She is honest about what she does not know, and she documents her work so the next person can pick it up. We were sorry to learn she is moving on as our own systems move to a managed provider.

I recommend her without reservation, and I am happy to take a call.

Yours sincerely,

Robyn Takahashi
Practice Manager, Takahashi Law
