PROFESSIONAL SUMMARY

An information technology professional with over twenty-five years' experience gained across mainframe operations, desktop support and user training within large organisations. Known for reliability, depth of technical fundamentals and a methodical approach to problem resolution.

CAREER HISTORY

Senior Computer Operator, Bank of Southern Mercury (1994-2003). Responsible for overnight batch operations and escalation procedures.

IT Support Officer, Department of Survey & Land Data (2003-2014). Front-line desktop support for 300 staff; maintained the departmental user manual and inducted new starters in standard office technology.

Desktop Support Technician, Capital Facilities Group (2014-present, part-time since 2022). Second-line support, hardware lifecycle management, user training sessions.

EDUCATION

Bachelor of Science (Computer Science), Victoria University of Wellington, 1993.

PERSONAL STATEMENT

I am familiar with traditional office productivity software and am presently undertaking self-directed study of contemporary cloud administration and mobile device platforms, which I anticipate mastering without difficulty.
