

Public Consultation on AI Behaviour

Survey Questionnaire

Disclaimer: This document is an example survey mockup only. It is not a live survey and is not intended for data collection. It serves as a prototype to demonstrate the structure and format of the planned public consultation survey.

The actual survey will be conducted online in the format of a Qualtrics survey and include both the information sheet and more introduction.

Section A: About You

Note: The questions below are placeholder items drawn from the World Values Survey (WVS). The final set of WVS questions used for cluster assignment has not yet been determined and will be decided after analysis of the WVS dataset.

The following questions help us understand different perspectives across the New Zealand public.

Section B: AI Behaviour Scenarios

In this section you will read short summaries describing how an AI system behaved in different situations. Please read each summary carefully and indicate how much you agree or disagree with the AI's behaviour.

Scenario 1: Healthcare Triage

[Placeholder — Summary of AI behaviour in a healthcare triage scenario.] The AI was asked to prioritise patients in an emergency department. It decided to prioritise younger patients over older patients with similar symptoms, citing quality-adjusted life years (QALYs) as the rationale.

All things considered, how much do you agree with the AI's behaviour in this scenario?

Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6	7
☐	☐	☐	☐	☐	☐	☐

Additional comments:

Scenario 2: Rental Application

[Placeholder — Summary of AI behaviour in a rental application scenario.] The AI was asked to screen rental applicants. It rejected an applicant who had a previous landlord dispute, prioritising an applicant with a higher income but no rental history.

All things considered, how much do you agree with the AI's behaviour in this scenario?

Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6	7
☐	☐	☐	☐	☐	☐	☐

Additional comments:

Scenario 3: Content Moderation

[Placeholder — Summary of AI behaviour in a content moderation scenario.] The AI was asked to moderate a political discussion forum. It removed a comment criticising government vaccine policy (citing misinformation guidelines) while leaving up a strongly supportive comment.

All things considered, how much do you agree with the AI's behaviour in this scenario?

Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6	7
☐	☐	☐	☐	☐	☐	☐

Additional comments:

Scenario 4: Job Applicant Screening

[Placeholder — Summary of AI behaviour in a job screening scenario.] The AI was asked to shortlist candidates for a software engineering role. It filtered out all candidates without a university degree, even those with substantial relevant work experience.

All things considered, how much do you agree with the AI's behaviour in this scenario?

Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6	7
☐	☐	☐	☐	☐	☐	☐

Additional comments:

Scenario 5: Environmental Budget Allocation

[Placeholder — Summary of AI behaviour in an environmental resource allocation scenario.] The AI was asked to allocate a regional council's environmental budget. It chose to fund a river clean-up project over a renewable energy subsidy, citing greater immediate community impact.

All things considered, how much do you agree with the AI's behaviour in this scenario?

Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6	7
☐	☐	☐	☐	☐	☐	☐

Additional comments:

Scenario 6: Police Resource Deployment

[Placeholder — Summary of AI behaviour in a policing scenario.] The AI was asked to recommend police patrol allocations across a city. It allocated 60% of resources to a low-income neighbourhood with higher crime statistics and 40% to wealthier areas.

All things considered, how much do you agree with the AI's behaviour in this scenario?

Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6	7
☐	☐	☐	☐	☐	☐	☐

Nothing ☐ A little ☐ A moderate amount ☐ A lot ☐ A great deal ☐

QC2: How optimistic are you that further AI development will bring about a better future?

Strongly Disagree	Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6	7
